## MEDIA RELEASE

### **Owen Sound Safe Trails Network Project Open House Map Release and Outline for Trails Master Plan**

---

**The City of Owen Sound will be hosting an open house on November 10, 2011 at 7 p.m., for review of the Trails Map (draft) and outline of the Trails Master Plan Document.**

The purpose of this open house is to allow the public to provide feedback in relation to the final Trails Map and content outline of the Trails Master Plan.

Beginning in spring of 2011, the City of Owen Sound has geo-referenced the trail networks and routes throughout the City. This information has been added to existing City maps and a draft document has been created. This map is an essential part of the Owen Sound Safe Trails Network Project, and will act as the official inventory of City of Owen Sound Trails. This project is funded through the Ministry of Health Promotion Healthy Communities Fund.

This open house will allow for an introduction of topics to be discussed and considered for the Trails Master Plan document that will be created in early 2012.

Members of the community who are interested in the Owen Sound Safe Trails Network project and mapping can attend this open house on November 10, 2011 at 7 p.m., Bay Room, Harry Lumley Bayshore Community Centre.

Additional information on the Safe Trails Network project is available on the City's website: [www.owensound.ca/planning/safetrails.php](http://www.owensound.ca/planning/safetrails.php).
